### CHECK-LIST OF CENSUS RETURNS NEW BRUNSWICK, 1851-1871 NOVA SCOTIA, 1871

1963

Price: 25 cents

Government  
Publications

MAR 18 1969

## MICROFILM COPIES OF CENSUS RETURNS

The census returns in this list may be borrowed, three reels at a time by any library which possesses a microfilm reader and which participates in the interlibrary loan arrangement.

Positive microfilm copies of census returns may also be purchased. Full reels (90 - 100 feet) are priced at \$9.00. The price of shorter reels is calculated at a rate of ten cents per foot. Positive microfilm may only be purchased by the reel - parts of reels are not available for sale.

Orders for positive microfilm should be addressed to:

The Dominion Archivist,  
Public Archives of Canada,  
Ottawa 2, Ontario.

Payment should not accompany orders. Accounts will be submitted after the work has been completed.

## RECENSEMENTS SUR MICROFILM

Les microfilms des recensements indiqués dans cette liste peuvent être empruntés, trois bobines à la fois, par toute bibliothèque qui possède une liseuse de microfilm et qui adhère à la convention sur les prêts entre bibliothèques.

On peut aussi acheter un microfilm positif de ces recensements. Une bobine ordinaire (qui contient de 90 à 100 pieds de film) coûte \$9.00. Les courts métrages se vendent à raison de 10 cents le pied. A noter cependant qu'on ne peut acheter qu'une bobine entière; on ne sectionne pas les bobines.

Les commandes pour les microfilms positifs doivent être adressées comme suit:

L'Archiviste du Dominion,

Archives publiques du Canada,

OTTAWA 2, Ontario.

On ne doit pas envoyer d'argent avec la commande. Une facture sera soumise quand la commande aura été remplie.

## NEW BRUNSWICK CENSUS RETURNS IN THE PUBLIC ARCHIVES OF CANADA

The New Brunswick counties, townships, parishes, cities and towns for which census returns are available are listed in this catalogue. Villages, parishes and small towns were generally enumerated as part of the township in which they were located.

The catalogue numbers given in the list after the year of the census (e.g. 1871: C-700) indicate the reels of microfilm on which specific returns are to be found, but are not intended to imply that the returns for a particular town or township occupy the entire reel. Most reels contain returns for several townships.

## RECENSEMENTS DU NOUVEAU-BRUNSWICK AUX ARCHIVES PUBLIQUES DU CANADA

Ce répertoire donne la liste alphabétique des comtés, cantons, paroisses, cités et villes du Nouveau-Brunswick que possèdent les Archives. Les petites villes, les villages et les paroisses sont généralement recensés avec le reste du canton dans lequel ils sont situés.

Dans ce répertoire, la cote qui suit l'année du recensement (exemple, 1871: C-700) donne le numéro matricule de la bobine de microfilm qui contient le recensement du lieu indiqué, mais ne signifie pas que toute la bobine réfère à ce lieu; en effet, la plupart des bobines contiennent le recensement de plusieurs cantons.

## **NOVA SCOTIA CENSUS RETURNS IN THE PUBLIC ARCHIVES OF CANADA**

The Nova Scotia counties, townships, cities and towns for which census returns are available are listed in this catalogue. Villages and small towns were generally enumerated as part of the township in which they were located.

The catalogue numbers given in the list after the year of the census (e.g. 1871: C-711) indicate the reels of microfilm on which specific returns are to be found, but are not intended to imply that the returns for a particular town or township occupy the entire reel. Most reels contain returns for several townships.

## **RECENSEMENT DE LA NOUVELLE-ÉCOSSE AUX ARCHIVES PUBLIQUES DU CANADA**

Ce répertoire donne la liste alphabétique des comtés, cantons, cités et villes de la Nouvelle-Écosse que possèdent les Archives. Les petites villes et les villages sont généralement recensés avec le reste du canton dans lequel ils sont situés.

Dans ce répertoire, la cote qui suit l'année du recensement (exemple, 1871: C-711), donne le numéro matricule de la bobine de microfilm qui contient le recensement du lieu indiqué, mais ne signifie pas que toute la bobine réfère à ce lieu: en effet, la plupart des bobines contiennent le recensement de plusieurs cantons.
